Hi Team Leads,

Thank you so much for registering for the Tepper x Vertex Case Competition. We have attached the case provided by our corporate partners at Vertex for you all to begin your work. As a reminder we will also have an "office hours"/Q&A session tomorrow September 22nd at 8pm EST. Note this is not a required session, but all team members will be invited. Please feel free to reach out with any questions as they arise.

Good Luck,
Logan

Hi Team Leaders,

You should have gotten an invite to tomorrow's "office hours". Please send that to your teammates and remember the session is **not** required. One question that has been asked a fair amount already is around the mentioned analyst reports and other data elements.

I have attached to this email a few analyst reports. Note that these may not be the most updated reports available. The majority if not all the institutions represented in this competition provide a way to access this type of report. Any remaining data is on you and your team to uncover. This shows how effectively you can do market research and/or identify data needs.

Best of Luck,
Logan
